

R E M A R K S

The Examiner has rejected claims 1-15 under 35 U.S.C. §112 referring to the phrase "applying an electric field". Claims 1 and 6 were amended to apply a magnetic field. This language is supported by paragraph 48 of the specification. No new matter was entered as a result of this amendment. In addition to the language in the specification, it is well known in the art that manufactured magnets often require an applied magnetic field to induce a permanent magnetic moment having uniform direction.

No art is cited in the Office Action. Based on the foregoing comments, the above identified application is believed to be in condition for allowance, and such allowance is courteously solicited. If any further amendment is necessary to advance prosecution and place this case in allowable condition, the Examiner is courteously requested to contact the undersigned by fax or telephone at the number listed below.

Please charge any cost incurred in the filing of this Amendment, along with any other costs, to Deposit Account 06-1510. If there are insufficient funds in this account, please charge the fees to Deposit Account No.06-1505.

Respectfully submitted,

Damian Porcari
